Javascript, React js, MySQL  
Abuja, Federal Capital Territory, Nigeria

## Summary

### Software Engineer

I am a dedicated and results-oriented Computer Engineer with a passion for creating innovative solutions through mastery of various programming languages and extensive experience in app development. Eager to contribute to cutting-edge projects, leveraging a strong technical skill set and a proven track record of success. I have over 7 years of general IT experience, and 3 years experience in business solution automation.

I hold a Bachelor of Engineering degree in Electronics and Computer Engineering from Nnamdi Azikiwe University, where I learned the fundamentals of software development, data science, and analytics.

I am also a Microsoft Certified Professional in web development, data science, and design thinking. I am passionate about solving business problems using innovative technologies and collaborating with companies of all scales.

---
